I'm a proactive, responsible and eager to learn person, interested on investigation field and a great passion for Data Science. I have 8 years working on investigation projects where I've acquired experience in planning, organizing, and implemented Good Practices in Quality Management Systems in order to obtain clear results and reports. My empathy allows me to be honest, care about others and work with ethics.

EMPLOYMENT HISTORY

EDUCATION

Data Science

TripleTen November 2023-
Currently

M.Sc Immunology

IPN-ENCB 2019-2021

Medical Veterinarian Zootechnician

UNAM-FMVZ 2011-2018

LANGUAGES

SPANISH (NATIVE)

ENGLISH B1

April 2024 -
Currently
(Mexico)

Data Analyst Jr.

TERAN-TBWA

I currently work in this publisher digital marketing company with around 500-1000 employees. I work with Adobe Analytics, Google Analytics, Tableau and Excel, in order to report metrics for the Nissan Mexico Site. I also work with Python in order to do automatizations for reports.

2021-2023
(Mexico)

Assay Operator

UNIPREC-UNIDESMIC (BSL3)

I developed Standard Operating Procedures (SOPs) and applied organizational skills for supply management, project record-keeping, and data entry. I employed critical thinking to ensure quality control and prepared reports. Additionally, I effectively communicated to participate in work meetings and also demonstrated strong teamwork and leadership abilities in conducting various assays, in collaboration with the Coalition for Epidemic Preparedness Innovations (CEPI). All of these activities were carried out in accordance with Good Laboratory Practices (GLP) and a Quality Management System (QMS).

2017-2021
(Mexico)

Teacher's Assistant 2017-2021

FMVZ-UNAM

I taught practices of immunology laboratory with leadership, elaborated exams and evaluated with ethics.

I was receptionist in microbiology and immunology diagnosis area, I had to do data entry and delivery results under the regiment ISO:9001.

Either receptionist and teacher I always listened and attended people in order to try to solve their problems.
